ATA Summaries filed by BBC

REF : Memorandum to Chief, FBIS, from Chief, Mediterranean Bureau,
dated 26 November 1952, above subject.

1. The proposal that the Mediterranean Bureau file all significant items from Albanian Home Service broadcasts is concurred in. It is suggested that you coordinate directly with the BBC to effect the discontinuance of BBC ATA summaries and FBIS reports to Caversham of items filed from Tirana.

2. The FBIS - BBC Coordination Committee at its recent meeting agreed to strike from the principle of Kyrenia - Caversham coverage allocation the provision that when one or more bulletins become audible to the BBC, FBIS Mediterranean Bureau will not file material therefrom. It is considered that this revision will clearly permit the Mediterranean Bureau to file material from services mainly audible to it on a continuing basis.
